DETAILED ACTION

1. **Claim 2 is cancelled and claim 1 is amended. Claims 1, 3-8 are pending and are examined.**

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. **Claims 1, 3-8** are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over **claims 1, 2 and 8** of copending Application No. 10063891 (hereinafter '891 application).

Although the conflicting claims are not identical, they are not patentably distinct from each other because in the instant case all elements of independent claims **1** corresponds to **claims 1 and 2 of the copending '891 application**.

Independent Claim 1 of the instant application is anticipated by the copending application '891 **since claim 1 and 2 of the copending application '891** contains each and every limitation of claim 1 of instant application. Claim 1 of the instant application therefore is not patentably distinct from the claims 1 and 2 of the copending application and therefore unpatentable for obvious-type of double patenting.

Art Unit: 2132

This is a **provisional** obviousness-type double patent rejection because the conflicting claims have not in fact been-patented.

Allowable Subject Matter

4. **Claims 1, 3-8** would be allowable if the Double Patenting rejection(s) set forth in this office action is overcome.
